“if you look deep in the faces of the children you will see stories of pain, suffering, rejection, emotional and physical abuse at the Zambia orphanage and village. The sad part is because of the language barrier we will never truly understand their story but it is amazing that when we reach out to them with love, kindness and patience, how the doors open for Jesus to bring healing and restoration to the children.”

Box of Hope Project

“Every year we have our Box of Hope Project.

A one time donation of \$35 will bless a child with a set of clothing, toys or activities, new toiletries and a special meal over Christmas time.”

Hello, my name is Emma Patrick.

I am Ms Goa, Honorary Ambassador for Mystic and International Role Model & Ambassador.

Hands on Africa is very close to my heart. As some of you will probably already know, I have an incurable brain tumour but I used to be an English teacher. I believe it is important to learn from an early age about different people and traditions.

My goal in life is to help people and make people happy. It isn't about what we have been given, it is about what we can do with what we have. One of my favourite films is Pollyanna, if you haven't watched it yet, I can highly recommend it. It is a wonderful family film. The thing that impresses me the most is when Pollyanna, played by Hayley Mills talks about the glad game. The glad game is all about finding something to be glad about, even though things are difficult. I use this way of thinking myself and it really helps me.

I hope you and your children enjoy my book.
